- Easily adjustable PushLock system.
- 6 point 25mm webbing ProLock harness.
- Adjustable to fit head sizes 53cm - 66cm.

CARE INSTRUCTIONS

Upon issue, wearers name & date of issue should be printed on the label provided.

ProChoice hard hats should be inspected for any deterioration or damage prior to use. ProChoice hard hats with excessive damage (cracks, colour distortion or deep abrasions) should be disposed of. Entire hard hat, including harness, should be cleaned with warm soapy water (avoid any solvents) on a regular basis & sweatband replaced. Industry recommends hard hat shell be replaced after 3 years of working life.

Components of the hard hat harness may deteriorate during its normal working life, & as a result the harness should be replaced at intervals no longer than 2 years.

To extend your hard hat working life, avoid excessive exposure to UV & any solvents.
