

The Bandit® 5042 is a heavy-duty leather work glove made with an interior layer of high-performance Corecept® technology, the 5042 provides industrial puncture protection against the most hazardous sharps and splinters you will find in the lumber industry. The 5042 has an incredible fit and feel and will outlast most other leather gloves.

HexArmor® heavy duty gloves are built from the inside out, with technologies that provide industry-leading cut and industrial puncture resistance. We put everything we have into building our heavy-duty line of safety gloves, and the result is purpose-built PPE you can trust.
